

CLINICAL INTELLIGENCE TREND REPORT

YELLOW: Closer Observation Suggested

Patient ID: RSanchez **Period:** September 17 to November 20, 2024 **Report Date:** November 21, 2024 **Coverage:** Bed: 1163/1544h (75.3%)
Chair: 1117/1544h (72.3%)

Patient's monitoring period was less than 90 days; this report covers all available data. Decision-support summary derived from longitudinal vital sign trends; interpret in clinical context.

Patient clinical status over 65 days from Sep 17 to Nov 20 ■ HR ■ Breathing

Episodic Events	Total Hours	Highest Burden	Episodes/day	Coverage
86	100h	High Breathing	1	100%

Major Findings: Sustained high breathing (avg 16, peak 58)

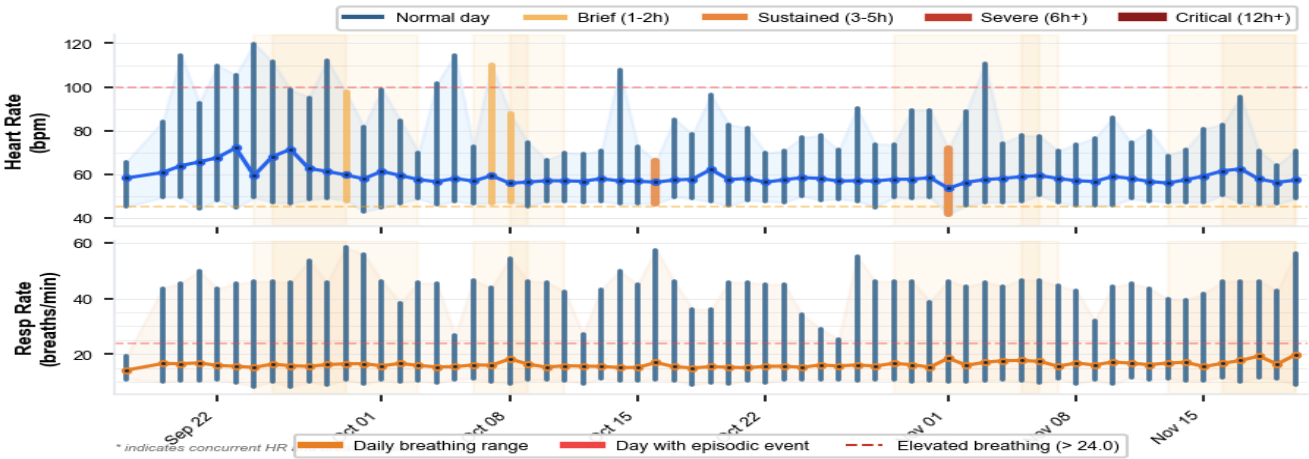

#	Episode	Min/Max	Total Hours	Longest Continuous	Episodes/day	Average	Date
1	High Breathing	46 brpm	20h	4h	2	17 brpm	Oct 29 to Nov 06
2	High Breathing	58 brpm	15h	3h	1	16 brpm	Sep 24 to Oct 03
3	High Breathing	54 brpm	3h	1h	2	17 brpm	Oct 08 to Oct 09
4	High Breathing	56 brpm	7h	1h	1	18 brpm	Nov 16 to Nov 20
5	Elevated Breathing	54 brpm	12h	2h	2	16 brpm	Oct 06 to Oct 11
6	Elevated Breathing	46 brpm	10h	2h	1	17 brpm	Nov 13 to Nov 20

+ 2 additional condition(s) across Elevated Breathing; details in monitoring data.

The P5 to P95 heart rate spread was 24 bpm (52 to 76), indicating significant cardiac variability.

Clinical Pattern Observations:

- 1. **High variability:** HR spread 24 bpm (52 to 76).
- 2. **Clustered pattern:** Episodic events on 5 of 65 days (7%).
- 3. **Daytime pattern:** Episodes concentrated during waking hours.

Red bars indicate days with detected episodic events.

■ HR episode ■ RR episode ■ Recorded, no episode ■ No data

Clinical Alerting Thresholds

- Very Low HR < 40 bpm
- Low HR < 45 bpm
- Elevated HR > 95 bpm
- High HR > 100 bpm
- Very High HR > 110 bpm
- Elevated Breathing > 24 brpm
- High Breathing > 30 brpm
- Very High Breathing > 40 brpm

Episodic event: threshold exceeded continuously for ≥ 1 hour. Episodes separated by ≤ 1 hour of normal vitals are counted as the same event. Brief threshold crossings that do not sustain are not flagged.
